## IPHONE 4 HOLDER FOR NON-TUBULAR HANDLEBARS

### HOLDER

Thanks to a precise tightening system with a foolproof guide and ultra-fine regulation of the belt locking device, this holder offers the highest degree of stability on the non-tubular handlebars found on scooters and motorcycles.

The rubber strap provided with the system is applied along the inside of a belt equipped with ultra-fine adjustment capability and protects the handlebar from pulling and rubbing.

The sturdy eyelet on the end of the belt with ultra-fine adjustment allows the user to pull on the belt gradually until the mounting system reaches its most stable, final position.

The system for adjusting the support bracket permits precise regulation of the angle at which the snap-on bayonet clip is pointed and is designed for use with dedicated products in the Interphone line.

The SSCiPhone system is easily removable for use on other motorcycles and is also equipped with a quick-release lever for rapid removal of the device.

The SSCiPhone does not require installation by qualified personnel and is ideal for all types of scooters and motorcycles with non-tubular handlebars.

### CASE

Water resistant case for carrying iPhone on motorcycles and bicycles. A very sturdy external housing and knock-proof internal rubber shell provide your device with total protection. The mounting bracket with safety closure is adjustable over a full 360° so you can arrange your iPhone in the best position possible.

All iPhone functions are available with the phone in the case, including the Touch Screen function, plugging in the earphones, and using the battery charger.

## Functions

- For non-tubular handlebars with circumference of up to 50 cm.
- Universal holder with quick-release system
- Belt with ultra-fine adjustment capability
- Handlebar mounting bracket with adjustable (360°) viewing angle
- Quick-engage safety lock
- Anti-shock lining
- Dedicated removable internal adapter in silicone
- Water resistant
- Full access to iPhone keys
- Can be recharged while in use

- Compatible with non-tubular handlebars up to 50 cm circumference

- Special mechanism quickly releases the case from the handlebar holder

- Knock-proof guard surrounds unit for maximum protection

- Handlebar mounting bracket with adjustable viewing angle

- Crystal film is compatible with all touch screens

- iPhone can be recharged while in use
